### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

1. The application has been amended as follows:

Title as follows:

- Starter for internal combustion engine having a ventilation passage.

2. The following is an examiner's statement of reasons for allowance:

The Prior art doesn't disclose alone or in combination a frame coupled with said motor case, for covering said planetary gear speed reduction mechanism, and a partition plate, disposed between said motor case and said frame, for forming a motor chamber and a speed reduction chamber, wherein said partition plate has an armature shaft hole and a chamber-connection passage between said armature shaft hole and said armature shaft connecting said motor chamber and said speed reduction chamber, and a circumferential groove is formed at a peripheral portion of said frame between said partition plate and said frame to connect said speed reduction chamber and the outside, thereby forming a ventilation passage extending from said motor chamber through said speed reduction chamber to the outside.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2834

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
